WASHINGTON CITY.

The Northern Pacific Land Grant.

WASHINGTON, April 10.—[Special.]—The conference between Senator Conkling, representing the Northern Pacific Railroad company, and the secretary of the interior yesterday, did not relate to any questions affecting the validity of the grants to the company. The chief point of discussion was in relation to the occupation of railroad lands along the line by settlers and the location of indemnity sections by the company in lieu thereof. The department holds that the filing of the map of the company constitutes to all intents and purposes legal withdrawal of the adjacent odd sections from settlement. It is not believed that the company will find it necessary to ask for the indemnity of the lands, as but comparatively few settlements of the character that the rulings of the department do not approve have been made under the land laws and upon grant of the land office. Officials say that in cases where lands have been entered and settled within railroad sections, and disputes with the company have arisen in consequence, over 75 per cent. of such cases have been decided in favor of the settlers.

The Star Route Trial.

WASHINGTON, April 9.—In the star route trial to-day witness John R. Miner one of the defendants, said that Dorsey was a member of the railroad committee and in the course of his inspection of the Northern Pacific railroad had been impressed with the glowing possibilities of eastern Oregon, and thought bids upon the routes of that country had been worked too high. One of them was reduced $1000 by his suggestion, and the contractors lost more than that sum from their release upon his judgment. Specific denial was made of nearly everything of importance included in Rerdell's testimony affecting witness. Witness said he and Rerdell quarreled on the avenue one day in the spring of 1877; witness told Rerdell if he ever spoke to him again he would mash his nose all over his face, and had nothing to do with him after that until the trial had begun.

Without concluding the examination the court adjourned.

Postmaster General Gresham.

WASHINGTON, April 10.—[Special.]—Speculation is still rife as to the effect Postmaster General Gresham's appointment will have upon Indiana republicans. Some observing republicans from other states are pretty well satisfied the Indiana delegation would no more have indorsed Judge Gresham for a cabinet position than they did when Garfield was making up his official family. If leading Indiana republicans are sore, as they are sometimes represented to be, they certainly succeeded admirably in concealing their wounds. Commissioner Dudley speaks with generous commendation of the new postmaster general, and the assistant secretary now pays a high compliment to Judge Gresham's ability.

Secret Conference.

WASHINGTON, April 10.—[Special.]—Ex-Senator Conkling, representing the Northern Pacific railway company; Secretary Teller and Mr. McCammon, attorney general for the interior department, had a conference in the rooms of the latter to-day. The conference was private and the officials refused to make public the details of the meeting. McCammon says the consultation refers to certain questions which arise in constructing the Northern Pacific land grant.

The First Case.

WASHINGTON, April 10.—The first case under the Bowman act passed at the last session of congress, was filed in the court of claims yesterday, having been referred to this court by the secretary of war. This was a claim for $38,864, made by Major General John Pope, for the difference of pay between a brigadier general and a major general, while he was on duty, by assignment, of the president, according to his brevet rank, from April 1, 1867, to October 23, 1882.

The G. A. R. will Participate.

WASHINGTON, April 10.—The Grand Army of the Republic for the department of Maryland and Washington has decided to participate in the annual reunion of the Society of the Army of the Potomac, to be held here May 16 and 17, and has tendered the society an escort upon the occasion of its parade, which has been accepted.

Rangers about to Invade San Carlos.

WASHINGTON, April 10.—Indian Agent Wilcox of San Carlos agency, in a telegram to Commissioner Price, says it is rumored that a company of rangers are being organized at Tombstone, and general indications point to an invasion of San Carlos reservation. He adds the result of such invasion will be disastrous.

CRIMINAL.

CHARGES THE POLICE WITH INHUMAN CRUELTY.

CHICAGO, April 10.—Captain J. J. Jones, late broker of Boston, who was arrested here last Wednesday at the instance of John Hoyle of Boston, on the allegation that he failed to account for a $1000 bond belonging to Hoyle, charged the police of Chicago with inhuman and cruel treatment. On a pretext of bringing him into court to give bail, he was secretly removed to the station at the outskirts of the city, and placed in a dark cell for two days. His only food and drink were three buns and a cup of coffee, which he persuaded his keeper to buy for him, paying for the same; and that the cell in which he was placed was overrun with rats, and, failing asleep from exhaustion, he was badly bitten. Inquiring friends could learn nothing of his whereabouts. He denied the charge made by Hoyle, and said that he paid a portion and then failed. Jones is the man who figured so prominently in the noted Pond divorce case.

PROBABLY A CRANK.

PITTSBURG, April 10.—An Englishman named Wm. Menefy, believed to be a crank, called at the central police station last night, and stated that he was one of the murderers of Lord Leitrim, and wanted to give himself up. He claims to be a member of the land league, a nihilist and a socialist, and says he was one of the six men chosen by the land league to kill Leitrim, and that they shot him on the Kilmarnock road, Ireland, November 14, 1881. He was locked up.

VIOLATING THE EXCISE LAW.

NEW YORK, April 10.—Thirty-seven cases of the violation of the excise law were on the calendar of the court of general sessions yesterday. Twenty-five pleaded guilty, 22 of whom were fined $10 each, and three were sent to the city prison for 30 days. The others pleaded not guilty and will be tried.

KILLED BY AN INSANE MAN.

NEW YORK, April 10.—[Special.]—The *Herald* publishes the details of a terrible crime committed at a small town in Brazil recently. A young man, son of wealthy parents, while insane, killed his brother and six slaves in the night. Two other slaves are missing, and probably were butchered.

TWO DEFAULTING BROTHERS.

NEW YORK, April 10.—Washington and Henry Tobias, two brothers, aged 30 and 25, are defaulters to the extent of $50,000. The money belonged to their late father's estate. They speculated some, but it is said the money was principally spent in fast living. It is thought they may be in Europe.

A DEFAULTING BANKER.

TOLEDO, O., April 10.—The chief of police has ordered the arrest of T. Coy, chief member of the suspended banking firm of Coy & Co., on a charge of embezzling trust funds. Coy suddenly left recently saying he was going to New York. It is believed he has gone for good.

RAILWAY RUMBLINGS.

TO CARRY WHISKY.

LOUISVILLE, April 10.—Negotiations with Canada for the admission of whisky in American packages having failed, the L. and N. and the O. S. railroads are making arrangements to put on lines of vessels from Pensacola to Bermuda, so it can transport whisky, via Pensacola to Louisville, at a minimum cost. It is believed that many charges that attach to shipments via New York can be saved, and that nearly all the export movement of whisky will be via Pensacola.

THE LEASE RATIFIED.

ST. LOUIS, April 10.—The stockholders of the Iron Mountain and Wabash roads held their adjourned meeting to-day, and ratified the action of the directors in New York a few days ago respecting the lease of the Wabash to the Iron Mountain. About two-thirds of the Wabash stock and all of the Iron Mountain, excepting 15,000 shares, voted.

TRIAL OF BRAKES.

NEW HAVEN, April 10.—The American Brake company yesterday stopped a 2.8 ton train, going at a speed of from 25 to 30 miles an hour, on a level grade, in 40 seconds, or 225 yards.

FOOTLIGHT FLASHES.

FROM THE FRYING-PAN TO THE FIRE.

PITTSBURG, April 10.—Rev. Charles Steck, pastor of the Messiah Evangelical Lutheran church of this city, has in contemplation a vacation of the pulpit for the stage. He will probably make his first appearance here some time in May. Steck is said to possess considerable histrionic ability.

PATERSON, April 10.—Nathan Barnett, democrat, was elected mayor over Gilmore, republican, by 500 majority.

The Irish Conventions.

NEW YORK, April 10.—[Special.]—The *Sun* collects from a variety of sources Irish opinion on the two conventions to meet in Philadelphia the 25th and 26th for the consolidation of American friends of Ireland into one harmonious organization. It says: "The present aspect of the field shows that the moral force of men have the best chance of securing control of the conventions, but there will be no insignificant effort to take a step in advance and compel a declaration of a more active warfare than has yet marked the efforts of the land league."

SHE DIDN'T BELIEVE IN HERO WORSHIP.

DAVENPORT, Ia.—The *Democrat* furnishes this item: In our schools a little girl, who said she worshipped her papa because he married her mother, and was asked by the teacher if she believed in hero worship, answered: "No, but I do believe in Saint worship, because Saint Jacobs Oil saved my little brother's life when he was sick with sore throat, and it cured mamma's neuralgia."

ENGLAND.

GALLAGHER DECLARES HIS INNOCENCE.

LONDON, April 10.—Tracy Gould, an American lawyer, applied yesterday at the Mill Bank prison for an interview with Gallagher, whom he wished to defend. Gould's name not being on the roll of English lawyers the government refused him admission. Gallagher then asked Wm. Doveton Smyth to defend him. Gallagher has made a statement to one lawyer that he came to England on a tour and met Wilson accidentally. He accompanied Wilson to the latter's lodgings in Nelson Square, being glad to meet a fellow countryman, and had not been there five minutes when arrested. Wilson declares that Gallagher is innocent of the contents of the box found at Wilson's lodgings and says he first met Gallagher in Brooklyn, where the latter attended him in the capacity of physician. Norman has again expressed a desire to enter the witness box. Government guards are ordered to guard Mill Bank prison.

CONSPIRACY NOTES.

LONDON, April 10.—It is noted that Norman has been acting for some time in the service of the police.

A peculiar key was found on Whitehead and is believed to belong to some magazine.

A steamer has been ordered to cruise in the vicinity of Woolwich arsenal day and night.

A. M. Sullivan, who received warning from O'Donovan Rossa, writes that he does not attach much importance to Rossa's threats.

TRIAL OF FREE-THINKERS.

LONDON, April 10.—Charles Bradlaugh, W. J. Ramsey, free-thinkers, and G. W. Wood, editor, charged with publishing a sketch of the Deity, and containing libels, were arraigned before the lord chief justice and a jury to-day. Bradlaugh, denying responsibility for the publication, applied for and was granted a separate trial.

GOOD REASON FOR THE HASTE.

LONDON, April 10.—The *Times* says: "There was a practical reason for the haste in which the bill in regard to explosives was passed through parliament yesterday," and explains by stating that some members of the dynamite party are believed to be in steamers now coming from America.

THE WORK OF AN INCENDIARY.

WESTMINSTER, Md., April 10.—A destructive fire is raging at Westminster. It is of incendiary origin and started in Thompson's livery stable. Eighteen buildings have been burned and more are burning. Loss, $70,000.

IRELAND.

NO RELAXATION OF VIGILANCE.

DUBLIN, April 10.—There is no relaxation on the part of the authorities in their endeavor to detect and arrest suspicious persons. The police have just come into possession of information that a man has just arrived in Dublin who is supposed to be an emissary of the dynamite party, and whose mission is the destruction of property. All the hotels are being watched with the hope of arresting him. The Cold Stream guards have been placed in the buildings adjacent to the Green street house, where the trials of the Phœnix park assassins are taking place. The object is to secure protection of the officers of the court and the informers who are testifying against the accused.

BRADY'S COUNSEL DECLINES TO SERVE.

DUBLIN, April 10.—The trial of Joe. Brady, indicted yesterday for the murder of Cavendish and Burke, which was to have begun to-day, has been postponed until to-morrow, owing to Dr. Webb Adams, who was appointed by Judge O'Brien as counsel for Brady, declining to conduct the defense. The courthouse was strongly guarded again to-day. Judge O'Brien intimated to Sullivan that he would be called on to co-operate with Dr. Webb Adams in defending Brady. The judge also expressed a belief that both gentlemen were unbiased. The judge insisted strongly that counsel should be ready to defend Brady despite their protest. D. B. Sullivan is the counsel, not A. M. Sullivan.

TWENTY-FOUR ARRESTS.

DUBLIN, April 10.—Twenty-four arrests yesterday in the outskirts of Cork and Limerick, and many important documents seized.

TEWKSBURY ALMSHOUSE INVESTIGATION.

Governor Butler Personally Conducts the Prosecution—Criminating Evidence.

BOSTON, April 10.—Governor Butler was present at the Tewksbury almshouse investigation to-day.

Jos. A. Chase testified that he had worked on Miss Manning, and with her knowledge had taken bodies to Harvard medical school, by order of Marsh.

The governor then introduced a sermon by Mr. Sanborn, minister of Lawrence, in which it was stated that Spaulding, one of the trustees of the almshouse, had boasted that while no emolument was attached to the trusteeship he could make it pay. The governor intimated that this was done by turning over contracts to outside parties with whom …

SPAULDING DIVIDED THE PROFITS.

The governor then offered testimony to show the character of Sanborn, which after some discussion was admitted.

John H. Chase, since his first testimony, says he had gone to Tewksbury with a dead-cart and unearthed a coffin supposed to contain the body of Joseph Clark. The body previously had been sold and the coffin, which was empty, was brought to Boston. There were other coffins in the same condition. Two poor women had offered money to witness to put a slab over their children's graves, which he refused, but Marsh said he ought to have taken it.

The name of the medicine is DR. WILLIAM HALL'S BALSAM FOR THE LUNGS, and may be safely relied on as a speedy and positive cure for coughs, colds, sore throat, etc. Sold by all druggists.

ARTHUR'S PICNIC.

"This is My Train, and If you don't do as I say I'll go Back."

KISSIMMEE CITY, Fla., April 10.—President Arthur reached here at noon to-day. The train stopped at Wattsfield, Mr Lawrence's orange grove, and then went on to Winter park. Secretary Chandler was thrown from a carriage and his neck was bruised. A similar accident, and probably more serious, occurred to another carriage, from which Dr. Kingsley, an elderly man, and his daughter were thrown, Dr. Kingsley being painfully wrenched between the shoulders. Col. A. B. Linderman met the president at the train here and drove him to a boat on Lake Tapakaliga, which pulled off in the afternoon up the Kissimmee river with a fair prospect of passing the night on a mud bank. Two ladies who had been with the party at Sanford came over to-day on a special car and returned before the boat started. The president had accepted an invitation Saturday to attend a school reception and picnic at Orlando, and preparations had been made to receive him, yet upon leaving Winter park he called the superintendent of the road and

COMMANDED HIM TO PASS ORLANDO

At a reduced speed, saying that he would stand on the platform to bow to the crowd at the station. The superintendent protested that calculations had been made for stopping, upon which the president replied, "This is my train, and if you don't do as I say, I'll go back." There was another train just ahead, and Mr. Ingraham, president of the road, preferring to risk the president's displeasure than the president's life, slowed up the special train. It has not been settled how long the president may remain hereabouts. White civilization ends here. Seminole braves were here Saturday to invite the president to visit them. It is likely that insects will drive him back in a few days. In that case he will return to Sanford, thence across Mono lake to Enterprise, where teams have been engaged to carry the party across to the Atlantic coast, at New Smyrna, the famous fishing grounds of Mosquito inlet. The plan then is to go up the coast to St. Augustine, where, possibly, the Tallapoosa may be waiting to take him back to Washington.

PENSACOLA WANTS ARTHUR.

PENSACOLA, April 10.—The president is invited to visit this city and Tallahassee. If the invitation be accepted, the president will likely return to Washington via New Orleans and Louisville.

ACCIDENTS.

Killed by a Falling Wall.

ROCHESTER, April 10.—Ten minutes after 7 o'clock this morning a large building at the northwest corner of Church and State streets fell with a crash. The side wall facing Church street had been erected this winter. It is supposed the mortar was frozen, and the warm weather of yesterday loosened the bricks and caused the fall. There were 17 men at work in the building. An alarm was sounded, which brought out the firemen and police, who are working hard at clearing away the debris. The names of those found in the ruins are E. L. Worden, William Ashbold, Frederick Kuehler, S. Burr, W. G. Gould, O. S. Burr, W. H. L. Brown, Ransom Porter, Anthony Dinkelspiel and Matthew Peard. The latter is dead. Two of the others are fatally injured. The owner of the building was on the roof at the time it fell and was seriously injured. Those in the basement were probably killed.

ROCHESTER, N. Y., April 10.—Only one death from the falling building, that of Mathew Peard. Wesley Ashbrook and B. S. Worden will die. Much indignation is felt toward the builder and owner, J. F. Carter. Loss, $13,000. The building had been condemned by the fire marshal.

KILLED BY A FALLING WALL.

STRIKES.

The Striking Bricklayers.

CHICAGO, April 10.—There is little change in the situation of the bricklayers' strike. Most master masons have a few men at work. New men are beginning to come in from other cities, and the strikers have begun intimidating the working non-union men. Several houses have been visited and the occupants threatened with death if they go to work. Some of the men employed on the new board of trade building were threatened yesterday, and a squad of police was sent to guard them.

Cigar Makers Will Strike.

PITTSBURG, April 10.—The cigar makers met last night and decided to strike May 1st unless the manufacturers concede to their demand for an increase of one dollar per thousand. The manufacturers say they will not grant the advance. There are 500 cigar makers in this city.

The Brakemen Strike.

HOT SPRINGS, Ark., April 10.—Brakemen on the Iron Mountain railroad struck to-day because of a reduction in the number of men to the train, and frustrated all efforts to move trains by pulling out coupling-pins, etc. Several arrests were made.

BUSINESS FAILURES.

Mill Company Failure.

ST. LOUIS, April 10.—The Atlantic Milling company, George Bain president, has suspended. The embarrassment was caused by dull European markets, the expense of introducing new brands of flour in Europe and being over stocked with wheat. Liabilities $400,000; assets two mills of 26,000 barrels capacity, valued at $400,000. The company expects to resume at an early day.

Speculation Did It.

NEW YORK, April 10.—Batchle & Button, 74 and 75 Worth street, have made an assignment. The firm is rated as having a capital of $60,000. The failure was caused by heavy losses caused by the speculation of a young junior partner who was forced to withdraw some time ago.

The club will play its first game next Thursday at Philadelphia, after which it will give exhibition games in Newark, Trenton and this city. The managers are inclined to believe that the club of foreigners will do better than giving burlesque exhibitions of the game, and says they are rapidly improving.

OTTAWA, Can., April 10.—Notwithstanding the positive assurance of Superintendent Sherwood of the Dominion police that the reported explosion in the eastern block was a canard, Detective Hongerress and four city policemen to-day inspected the underground passages of the parliament buildings, and have been granted permits to enter the buildings and Rideau hall at all hours of the day and night. Although this fact is not generally known, considerable uneasiness is manifested among the members. The night watch by the Dominion police has been doubled and every precaution is being taken to prevent the possibility of evil disposed persons creating trouble. San Francisco's Approaching Musical Festival—The Flow of Immigration to the Northwest Continues.

CALIFORNIA.

Hotel Runners Wage War Upon the Steamship Companies.

SAN FRANCISCO, April 10.—[Special.]—Hotel runners have commenced war against the steamship lines running to Oregon and Washington territory, in consequence of an order recently promulgated, which prevents them from boarding the vessels on their arrival or departure. The companies recently became satisfied that there was much cause of complaint, on the part of immigrants, of the dishonest treatment they experienced at the hands of the runners of hotels patronized by them, the invariable custom of the latter being to solicit patronage on a promise to land the immigrants and their baggage, free of charge, at the wharf, and after having induced them to stop at their houses, taking occasion to charge for the passage to and from the hotel on the day of their departure. In order to revenge themselves upon the steamship companies for interfering with the "royal preserves," the runners refuse to deliver the trunks inside the gates of the wharves, compelling immigrants to hire expressmen in order to convey their traps to the steamship landings. The companies will retaliate by notifying immigrants not to give checks for baggage to hotel runners, but to deal with the established transfer companies.

The Approaching Musical Festival.

SAN FRANCISCO, April 10.—Contracts have been awarded for putting the pavilion in readiness for the great Thomas festival. There will be 1500 seats on the ground floor, to be sold at $25 per season ticket. Around these seats will be 112 boxes, each seating six persons. These boxes will be sold at $100 each. One hundred have already been taken. In wealthy circles a desire is manifested to make this festival the greatest musical occasion ever held on the coast, and to surpass in splendor and magnificence of interior decoration anything ever attempted in the eastern states. Holders of private boxes will have them decorated after their own special designs, each box bearing some special indication of the occupant. Monograms, crests and coats of arms will be emblazoned in tapestry, each box being surmounted by characteristic emblems. There will be 4600 seats in all, none to be sold at less than $4. Plans of the interior will be sent to Portland, San Jose and Sacramento, so that residents of those cities, who wish to attend, can select seats. The stage will have a seating capacity for a chorus of 500.

One of the owners of the vessel, writing to a gentleman in this city, states that fully 200 families made application for passage but could not be accommodated. The vessel is rated as A 1 at Lloyd's, and is provided with all modern improvements.

Remarkably Good Time.

SAN FRANCISCO, April 10.—[Special.]—The special train which brought Villard and party to the city made the trip from Ogden in 21 hours and five minutes, or about 55 minutes slower than the Jarret & Palmer train. It consisted of a locomotive, officers' coach of the Northern Pacific and a Central Pacific coach that had been added to increase the weight. The distance to the city from Truckee, 190 miles, was made in three hours.

Enormous robberies have been made, and they will be surpassed during the next quarter of a century unless remedial measures are adopted and strictly enforced."

THE DETAINED IMMIGRANTS.

Mr. Villard Orders that a Special Steamer Carry them to the Northwest.

SAN FRANCISCO, April 10.—[Special.]—Investigation into the complaints of immigrants who reach this city on their way to Oregon and Washington territory and who experience considerable delay in obtaining passage to the scenes of future settlement, has been commenced by Henry Villard, with a prospect of being speedily abated. Since his arrival here much of his time has been devoted to the amelioration of their condition while waiting passage for the northwest generally, and to a personal inspection of the various lines of travel under his control. Complaints were recently made that immigrants coming from the section of country traversed by the Union Pacific railroad were subjected to considerable annoyance, because of the confusion and inconvenience resulting from the purchase of through tickets. So great has been the

RUSH FOR ACCOMMODATIONS

On outgoing steamers that it was found impossible to satisfy the demand, and in consequence those who were not fortunate enough to make close connections were obliged to wait for the next steamer at expenses which they are not prepared to meet. This state of affairs was established to the satisfaction of the president of the Northern Pacific this afternoon by a visit to the Broadway street wharf, shortly prior to the sailing of the steamer George W. Elder for Washington territory and British Columbia. The wharf was literally crowded with passengers, a great number of whom were unable to secure tickets for that steamer. It is impossible to form any approximate idea of the number in the steerage, though no doubt she carried the full number allowed by law. The immigrants consisted mainly of farmers and their families, over 130 children being included. So great was the rush that the immigrants appeared to be

SOMEWHAT CONFUSED,

And when the steamer had cleared the attention of Captain Goodall was directed to an old fellow who was frantically shaking his hat from a porthole and crying out to some one on the wharf to come aboard. A woman, leading some little ones, shot to the front of the wharf, and by her cries succeeded in having the steamer put back to the wharf, after which the gang plank was again lowered, and the woman and her children taken in charge by the excited immigrant. As soon as Mr. Villard was satisfied of the nature and extent of these complaints he gave orders that the first steamer in from the north should be immediately fitted for the return trip, and accordingly the steamer Mississippi has been detailed to sail next Friday for the purpose of enabling immigrants for the northwest to sail without the delay occasioned by waiting for the departure of the next regular Sound steamer.

HON. LIONEL SACKVILLE WEST.

A Clever Rascal Plays upon the British Minister's Fears and Fleeces him Handsomely.

WASHINGTON, April 9.—[Special.]—Two weeks ago Hon. Lionel Sackville West, British minister, was visited by Lieutenant Hoover, a well known character in public circles of this city, and informed him that his residence here was about to be blown to atoms.

"How?" inquired Mr. West. "Why," said Hoover, "There are here quite a large and respectable number of Irish dynamiters, and they are now fixing, if they have not already planted, dynamite around your house. I know whereof I speak and I think I can find out all about it."

"I will be much pleased if you will assist me in finding out about this matter," said West.

"It will cost money to do it," replied Hoover.

"How much?" replied the diplomat.

"Five hundred dollars. I will have to employ some help."

This seemed to satisfy Mr. West, and he paid the money then and there. Hoover left, and employed two ex-detectives to help him

FIND THE DYNAMITERS

Who were preparing to blow the representatives of Great Britain out of existence. The engagement of detectives, of course, was a blind on the part of Hoover, who had put them up simply to rob West. These two old detectives were advised of the matter, and called on West and learned that he paid Hoover quite a sum of money for their services in preventing his residence and family from being blown to "Kingdom Come" by dynamiters. The ex-detectives told him that in their opinion he had been gulled and there was no truth in the story. Hoover has been playing similar tricks on people in this city for years. The minister inquired what he could do with Hoover, and found that he could probably have him arrested and taken before a judge, but it would be very hard to convict him of any offense, whereupon Hon. Lionel Sackville West concluded not to molest the clever rascal and let the money go.

WINTER WHEAT.

Report of the Department of Agriculture as to its Condition.

WASHINGTON, April 10.—The Department of Agriculture reports cover the condition of the winter grain crop, on the 1st of April, over its entire breadth. In Michigan, and other northern territories, the wheat was still covered with snow. In the Ohio valley winter protection had been partial for a term locally varying from three to 10 weeks, after which the loss from freezing was quite general. The average depreciation is greater in the upper part of the Ohio valley, and in Kansas than elsewhere. East of the Alleghanies the condition is good in the northern half, declining slightly in the lower latitudes, and it is not up to average in

ANY PART OF THE SOUTH.

The average for the crop is 80; last April it was 104. The most observing reports have examined the roots, and, in many cases, found them health, while the plants are shorn, and there is good reason for believing that the real condition of the wheat is therefore less unpromising than it seems. The average of the condition in the states of large production are: New York, 86, Pennsylvania, 86, Ohio, 70, Kentucky 80, Indiana 75, Michigan 95, Illinois 80, Missouri 85, Kansas 70 and California 92. The average in winter wheat varied little from last year's breadth.

REPORTS INDICATE AN INCREASE

Of 1 per cent. Illinois returns 2 per cent. increase; Ohio, Michigan, Indiana and Missouri 1 per cent. decrease; California 10 per cent. increase, and a slight decrease appears in the gulf states. The returns of the quantity of seed used per acre indicates a tendency to thin seeding. Ten years ago about six pecks per acre were used, and now less than five and a half are sown in the winter wheat region. The increasing use of the drill admits of this economy. The acreage of winter rye is 98 per cent. of last year's breadth, and the average condition 94.

MARVELOUS GULLIBILITY

There is no doubt that the Mormons are increasing quite rapidly in numbers and in strength. Proselytes are being gathered in from many quarters but chiefly from the north of Europe. The great Mormon conference in Ohio, of which we have been receiving telegraphic accounts from day to day, is an indication of the activity of this really remarkable people. Believers in the impostures of the Mormon "revelation" are by no means confined to Utah. From that territory they have spread into Idaho, where they are very numerous and they are effecting a strong lodgment in Arizona. In western Pennsylvania and New York and in various parts of Ohio they are found in considerable numbers and the sect is being constantly reinforced by people gathered in from beyond the sea. Missionaries are traversing many parts of our own country and Europe and their continued exertions would sufficiently indicate that they are meeting with no small degree of success.

Setting aside the revolting social features of Mormonism, the progress of this superstition affords materials for curious study. It furnishes one more proof of the fathomless extent of human gullibility. It has been shown again and again how the book of "revelation" on which Mormonism professes to rest had its origin. Any inquiry whatever convinces. The whole history of the book is known to the world. How it was written by Solomon Spaulding, a resident of western Pennsylvania as a biblical romance, and as such was read by him in manuscript to his neighbors and friends; how it was sent to Pittsburg to be published and lay there a long time in a printing office, and was finally returned to the family after Spaulding's death without having been put in type; how Mrs. Spaulding took it with her to the State of New York, where she went to live with a brother, how Joseph Smith was employed upon the brother's farm, and how the manuscript, which had long been neglected, appeared after some years as a printed book containing a divine revelation [illegible] through the founder of Mormonism,—all [illegible] things, with other incidents, including [illegible] of Sidney Rigdon with the ap[illegible] of the book and with its promulgation [illegible] as well settled as any [illegible] be. The imposture even was more [illegible] exposed. Every day newspapers [illegible], right under the eyes of Mor[illegible] and yet their faith is not for a moment shaken. It is inexplicable, except on [illegible] that credulity has no [illegible].

Kirtland, Ohio, is the place where Smith [illegible] with a small band of followers [illegible] they had gathered, first established [illegible]. They remained about seven [illegible] a temple and a fraudulent bank, [illegible] driven away by the citizens. [illegible] Mormons now return to Kirtland very [illegible] in the spirit in which pious Moslems [illegible] to Mecca, to worship at the [illegible] "prophet."

RAILWAY CONSOLIDATION.

[illegible] of railway lines is one of the [illegible] monopoly most feared by [illegible]. Competing roads are desired yet [illegible] very marked toward consolidation [illegible] gives rise to popular alarm. Roads [illegible] would be competitive [illegible] under a single management or [illegible] throughout. Yet it is undeniable [illegible] the tendency is all the time toward [illegible] and cheaper service. Those who [illegible] special study of the subject under [illegible] that this is a consequence of [illegible]. In a letter to the Boston Journal [illegible] Charles Francis Adams, Jr., confessedly [illegible] railway authorities in the [illegible] and for illustration he [illegible] history of the territory north [illegible]. He finds that consoli[illegible] given better results than [illegible]. These results are secured [illegible] dispensing with superfluous ma[illegible] stations and men. Mr Adams [illegible] twenty years ago, a committee [illegible] parliament reported in favor [illegible] English railways to consol[illegible] consolidation produced general [illegible] of 1300 miles of [illegible] $250,000,000 of capital and [illegible] revenue under one [illegible] as a calamity, yet ten years [illegible] another parliamentary committee re[illegible] the change "had not brought with [illegible] anticipated." It is cer[illegible] the great roads of our own country [illegible] Pennsylvania system, though [illegible] extending their operations and ab[illegible] other roads to the extent of thousands [illegible] reduced the cost of their service year by year. On the New York Central the through freight rate has been [illegible] in the last twelve years.

THE MISSISSIPPI SEEKING A NEW OUTLET.

The people of New Orleans are becoming alarmed at a danger which threatens to change their city from a sea port to an inland town and to rob it of its commerce. The Times-Democrat contains a report furnished by its editor who has recently been on an exploring trip showing that the Mississippi river is rapidly making for itself a new outlet which will leave New Orleans practically far inland. His statements of fact in supporting this theory are startling. Leading out from the Mississippi the bayou Atchafalaya runs into the gulf which it reaches by a route 180 miles long while the Mississippi from the mouth of the Red river to the gulf is 327 miles long. Years ago this stream was fordable at many points and until 1881 it was hardly thought of as more than a creek. In that year measurements were taken at a certain point and the bayou was found to be 750 feet wide and 32 feet deep. In 1881 at the same point it was 940 feet wide and 130 feet deep. The report in the Times-Democrat says that "at the mouth of the Atchafalaya there is a depth of 135 feet, and at Churchville, a short distance up at the deepest place found there is 105 feet of water. There can be no doubt therefore that the river is growing broader and deeper at an alarmingly rapid rate. The lands along its banks are now continually subject to overflow. Its current, the path taken by it being more direct than that of the Mississippi, is swift, in some places running seven miles an hour." Capt. Eads in an interview declares that in two years more if the present rate of increase is maintained the Atchafalaya will be the main stream and the Mississippi only a secondary one. The people of New Orleans have good cause to be alarmed.

A telegraphic dispatch of twenty words between any two points in the United Kingdom cost six pence. The lowest rate in the United States is fifteen cents for ten words and this is only between a few local points. The English telegraph system is under the control of the government just as is the mail service here and is operated for the convenience of the people and not for revenue. The time will come when our government will have to condemn and purchase the telegraph lines for the public use.

The incidents of the life of Jesse James have been worked into a sensational drama, which has been given the name of the dead bandit and is being played in various parts of the country. In Massachusetts an injunction has been issued restraining managers from producing the piece because of its impure character.

In a block where there are seven saloons, all in a row, couldn't the city spare some of them? Would the heavens fall if one or two of them should succumb to the $600 license and the [illegible] bond?

SPURIOUS DISPATCHES

On the 7th February last the editor of this paper went to San Francisco on business and was absent till the 23d. The hoodlum daily asserts that on the 14th February THE OREGONIAN reprinted from [illegible] a spurious dispatch and [illegible] over it with a view [illegible] its habitual method [illegible]. If THE OREGONIAN [illegible] would naturally [illegible] them and if in this case anything that appeared in that paper's columns was reprinted [illegible] it may easily be accounted for. It is due to the public and to this journal to say that during the editor's absence in San Francisco (the manager being also absent) a difficulty arose in the office with the person who was editing the telegraphic report. In [illegible] habits and tastes he was found to be a fit companion and associate of the employes of the hoodlum daily and it may readily be supposed that while the "war" in the office was in progress he conspired with them to put a red in pickle for THE OREGONIAN by smuggling into its columns after it had appeared in theirs a bogus dispatch. There may have been more than one. This would be just work for very low scoundrels. The fellow was dismissed but not until recently has the baseness of his conduct become fully known. It has always been the purpose of the proprietors of this journal to keep every department of it in competent and honest hands. If it has a reputation for anything it is for its intense hatred of every species of quackery, fraud, artifice, deception and imposture. The resignation of the man who had long acted as telegraph editor compelled a trial of one who was unknown and who as it proved was capable of consorting with the employes of the hoodlum daily and doing disreputable things. It is needless to say that THE OREGONIAN, having its own telegraphic report which is twice as full as that of the free whisky organ and of far better quality, wants nothing from that organ's columns. If an imposition is practiced upon it by an unworthy employe, through conspiracy with rascals of his own kidney, it has no concealment to make and no lies to tell about it. No business can always protect itself against treachery but its managers need not commit deliberate fraud, and then add falsehood to conceal it. In other words, they need not act as the hoodlum daily does about this matter. That paper pretends still that it actually receives by telegraph the "dispatches" it clips from eastern journals and claims that they come from its own eastern correspondents, though it has no special correspondents there, and actually has the effrontery to say that it has "dismissed by telegraph" one of them who sent it an old clipping for a piece of fresh news! This "takes the cake." Having "dismissed" its imaginary correspondent at Washington it should now proceed to "dismiss" those at Pittsburg, Chicago, Denver, New York, and all other points from which these specials come. Yesterday it again had more than a column of the same kind, specimens of which we reprint with the originals, in another place. All that this journal has printed on this subject has been uttered with the single purpose of securing and enforcing honesty in the publication of news. Every line it prints, as received by telegraph, comes to it by telegraph and every article marked "special"—and these articles form a very large part of its report—comes to it alone, and it challenges from day to day the closest and most critical scrutiny of its columns for verification of these statements.

Plans have been drawn for a steamboat to ply the waters of Gray's harbor and the Chehalis river. It will be 100 feet long, 22 feet beam, will be built either at Portland or somewhere on the Columbia river, and will be owned by the Shoalwater Bay Transportation Company, of which Mr. L. A. Loomis of Ilwaco, is president. The growth of the carrying business on Shoalwater bay and Gray's harbor has been very great during the past two years. Prior to August, 1881, the freighting business of these bays was done by sailboats. There was but one steamer on Shoalwater and she was employed as a tender for the South Bend saw mill, and seldom engaged in general transportation. Now there are on this bay besides the old tender two freight and passenger steamboats both of which are in constant service and do a fairly profitable business. On Gray's harbor where two years ago there was scarcely any carrying business at all, one steamer finds enough to do, and the fact that another boat is to be built for that trade may be taken as an indication that there is a demand for her services. Farmers in that locality are highly prosperous. They find a home market for all they can raise, at prices in advance even of those paid to producers at Portland. So great is the demand for produce from mills, logging camps, etc., that it cannot be wholly supplied without drawing from the Astoria and other markets. An era of activity is upon a section which has long suffered the disadvantages of isolation.

The police are making an earnest effort to break up the Chinese gambling dens which infest the city and Monday night they "run in" 44 devotees of the celestial tiger—tan. The tan games are bad in their way but they are of infinite less public harm than the gambling games carried on by white men and it is to be hoped that the police will not expend all their zeal on tan and before the faro and poker dives are given the whip of the law. By the uprooting of these dens the city would be ridded of a large share of the so-called sporting class. There are not less than 200 men in Portland professionally known as gamblers, a title which they assume because of the many "schemes" by which they get a living, gambling is the nearest approach to honest industry. They pick up money at the gaming table, lie in wait for greenhorns from the country whom they swindle in various ways, pick the pockets of drunken men, and when all these resources fail to yield a living and when it cannot be bummed, borrowed or stolen they live upon the charity of harlots, for whom they act as spies and solicitors. The men who thus live upon the wages of many sins are all hangers on about low drinking holes or gambling places. The high license ordinance will run many of them out of their low quarters and the breaking up of the gambling dens would uncover many others.

The oracles of the cheap whisky association say that about one hundred of them will "stand out," meaning that they will not comply with the law. Then let them be shut up and see how crime will decrease. If fifty or sixty take out the license and give the bond there will not be much suffering from want of places in the city to drink at. [illegible] the adult male population of the city at 5,000. No one supposes that more than half these [illegible] saloons. Fifty saloons [illegible] would be one saloon for fifty [illegible] the public stand it.

The New York Sun, which only a few months ago read patriotism [illegible] in very [illegible] of Ben Butler's inaugural [illegible] defines Butlerism as follows: [illegible] the latest information available [illegible] that Butlerism [illegible] agglomerate [illegible] of being smart and [illegible] the same [illegible] knowing shams [illegible] shams both theoretically and practically and of not caring a tinker's dam [illegible].

Oregonians who [illegible] have been bored and belittled by hotel runners upon the arrival of steamers at San Francisco will read with pleasure the dispatch among our specials this morning which says that the nuisance has been abated so far as Oregon steamers are concerned.

The steamers plying between San Francisco and Puget Sound are as sorely taxed as those running between the bay city and Portland. They carry as many passengers each trip as the law allows and as much freight as they can stow away.

THE OREGONIAN's [illegible] report suggests and with much propriety that Fifth street in that city which is about to be widened be renamed in honor of the late Dr. J. C. Hawthorne. It would be a grateful thing [illegible] the memory of the [illegible] Hawthorne Avenue would be a [illegible].

Major Willard [illegible] is making very [illegible] his power to avoid the [illegible] from emigrants for the northwest at San Francisco. The [illegible] has [illegible] time [illegible] to spare [illegible] they ought to be kept waiting.

THE PORTLAND LIBRARY

A Word of Explanation from the President of the Association

The [illegible] of the 8th inst [illegible] editorially that the Portland library belongs to a joint stock company of private gentlemen and was used by them as a source of [illegible] and that they subserve the public wants only so far as by so doing they put money in their own purse. Judge [illegible] of the association [illegible] the [illegible] which was published yesterday.

[illegible] that this statement is wholly [illegible] and grossly unjust.

The persons who have given their time and money during the last 20 years to build up and support this library have done so without any other [illegible] reward than a desire to promote the public good. And now to have it said, at this late day, in the columns of a respectable newspaper of this city that in so doing their prime purpose was to put money in their own purses is not calculated to encourage them in well doing.

The library association of Portland is as nearly a pure benevolence as it can be. Not a cent is received from the public for the use of the library but is expended thereon for the benefit of the public and indeed [illegible] more. It is conducted with a view of furnishing desirable reading matter at as small a charge as possible.

The dues ($1 per month) from subscribing members are applied to the payment of current expenses such as the salary of the librarian, fuel, gas, furniture and the like, and until very lately they were not sufficient for these purposes and [illegible] of them generously paid them out of their own pockets. For the past 14 years the rooms now occupied by the library have been furnished free of rent by one of the gentlemen who is accused by this article of engaging in this library business for the purpose of putting money in his purse!

In the last few years I have disposed of 85 perpetual memberships in the library for $250 each. The funds received from these amount to $17,000, the interest of which is applied to the purchase of reading matter. We hope in the next five years to increase them to 100. These persons do own the library, but it is in trust for the "public" who are entitled to make the same use of it as they and on much easier terms. We hope also to increase our endowments, so as to be able to diminish the monthly dues by at least one-half—but, I doubt if it be good policy to do more in that direction, for, generally speaking, what costs us nothing, does us but little good.

"THE SOUTH'S VICTORY"

New England Manufacturers here had their Day, and the Wheel Turns

COLUMBUS, Ga., April 10.—[Special.]—An advertisement announcing the triumph of southern competition with northern dry goods men states that the latter have been driven to the wall, and that the remedy sought in lower freights would be suicidal to railroads. The significant announcement is made. We got special low rates of freight to all important points. Copious extracts are given from various journals to show that New England manufactories have had their day. The appeal of New York manufacturers to the state railway commissioners it is thought will not avail any relief which will probably be sought from congress, the only body large enough to cope with trunk lines.

THE PRIZE RING.

INTERRUPTED BY THE POLICE

NEW YORK, April 10.—There was a large crowd last evening at the American Institute at the sparring entertainment in which Mitchell of England and McLeary of Philadelphia took part. It was thought that Mitchell would have no chance with McLeary, but the result showed that he was more than a match. In the third and last round he knocked McLeary off his feet once and would have done the same a second time had not Mitchell went to grass voluntarily. At the close the two clinched and were separated by the police. Mitchell received heavy applause.

ADDITIONAL LIQUOR LICENSES

All the liquor bonds filed with the city auditor and clerk up to Monday night have been approved by the mayor and president of the council and most of the applicants took out licenses yesterday. The following liquor dealers furnished bonds since our last report

Thos Guinean, St Charles—Sureties R Williams and W J Becannon

Leonard & Marx Burton House—Sureties M Koshland and Joseph Bergman.

Joe B Penny Gem—T J O Brien and T Dillenhofer

Joseph Watson 45 Morrison street— ... D W Hardenburgh and Joseph Kohn

On account of the misunderstanding about the wording of the ordinance and consequent confusion another day of grace will be granted to those desiring to take out licenses via to day. It is understood that the police will make arrests in every case where the law is violated after to-morrow morning

THE DEFIANT DEALERS

A prominent member of the free whisky association said yesterday to an Oregonian reporter that one hundred and thirty saloon keepers would not take out licenses until they are forced to that step The action of nearly every respectable liquor dealer in obeying the law in giving the necessary bonds and paying $125 has had its effect on the live keepers and there is not that ... of spinal column now that was displayed at the Friday afternoon meeting Our informant further said that if the dives were forced to pay the license they would lodge complaints against restaurant keepers who sold liquor in less quantity than a quart and paid no city license at all This subject has been discussed by restaurateurs, and if it is decided that the law is operative in their case they will simply not sell pints of ale, beer, champagne etc

WANTED TO BE ARRESTED

Richard Gordes the Well-respected Merchant Makes this Request in His Disappointed ...

A few minutes before 12 o'clock last night Richard Gordes who may be known by some of the older residents as having been at one time indirectly connected with the sale of spirituous malt and vinous liquors in quantities less than a quart came to the city jail and addressing Captain Luther said

I understand that you have a warrant for my arrest

I know nothing of any such warrant answered the urbane captain.

Well I was told that you intended to arrest me and I'd like to have the matter settled right now urged the ex councilman from the First ward

I know nothing of any warrant and I can't accommodate you in the matter much as I would like to answered Luther

Gordes looked crestfallen and just as he was turning to leave another member of the free whisky association came in for the same purpose but Dick told him it was no go

What racket is this you're giving the police Richard? asked a reporter as he reached the vestibule

Why you see, said the disappointed whisky vender we hired a lawyer to swear out a complaint against us before the new law went into effect. We could have made a stronger fight against the license and I waited at my saloon till twenty minutes of twelve to be arrested but nary policeman came and I'll bet $5 that the blank, blank duffer we hired got into Frank Harrington's dive, or the Ivy Green and is dead drunk on our money in some bad way

Farmers and Mechanics.

A FEW VERY PLAIN WORDS
Which we have to address
TO THE PUBLIC
Before we publish our next Price List.
IF
It sets some people thinking,
THEN
Our object is attained.
IF
It chagrins others,
THEN
It must bear the stamp of Truth upon its face.

WE BELIEVE IT WILL DO BOTH.

The main reason for the efficacy of advertisements lies in their truth. When a firm places itself before the public in long-winded sentences, and those sentences lack the main essential, "truth," then that firm may as well save the trouble as well as expense, for the people will surely discover their falsities.

The FARMERS AND MECHANICS' has expended more money among the journals of this State than many storekeepers possess as a working capital. It still continues to add thousands of dollars to its expense account for advertising. Does any one believe that such a thing could be possible unless it proved remunerative?—and what is more, that it would prove remunerative unless those advertisements were simple truths based upon facts?

When we tell the people that our goods are directly imported from the EASTERN MANUFACTORIES, we do not mean that they were imported through the San Francisco merchants.

When we advertise ONE PRICE TO ALL we do so without any mental reservation, for we do not then have in our mind any preferred customer whom we may favor above others.

When we announce a line of STAPLE GROCERIES at a certain price, then we are careful to always have them in stock.

In this manner we could go on interminably, and show the difference between a real, genuine, and sincere advertisement and a real, genuine catchpenny ad.

Our last week's price list on Clothing brought us an avalanche of country orders, and it would afford us great pleasure to prove by our sales books to any "doubting Thomas" that within the last eight days we sold over 360 Gents' Suits of Clothing. We venture the assertion that in the purchase of this clothing the people saved at least 33 1-3 per cent. of the prevailing Portland prices.

WE BELIEVE THIS WILL SET THE PEOPLE THINKING.

REMEMBER.

Every business is conducted to make money. No merchant sells goods at a loss, unless he has paid too much for them, or hopes by selling some things at a loss to sell other goods at a large profit. A glance at any of the newspapers of the day will show how far these shameful methods are resorted to. "Sweeping Reductions," "Selling Below Cost," "Goods at $1 per yard, worth $1 50." What else do such things mean but fraud? Such dealers simply thrive on the credulity of the public. But happily there are other business methods in vogue. There are merchants who sell low by selling much. People who have ready cash, and are thus free to trade where they will, find this out and deal with such merchants more and more. In time a great trade springs up as strong and enduring as Gibraltar itself, because broadly founded on the deep-seated convictions of the public.

The larger such a business grows the more independent it is. It dictates prices to manufacturers. It gets the best goods—the very cream of the market. On the other hand, it has the power of protecting its customers by selling to every one at the same prices; by allowing credit to no one, and by putting the selling price in plain figures on every article.

We do not claim superior honesty, but to have an honorable business honorably conducted, and one which has grown through the force of its own merit in the manner indicated.

To every customer we at least promise just and fair treatment, and we believe we could ... add: A saving in money to every one who trades here.

THE EAST SIDE.

A GRAVE MATTER

A disgraceful altercation occurred Sunday at Lone Fir cemetery arising from a dispute between the parties engaged concerning the right to dig a certain grave. It appears P Kiernan, the former sexton of the cemetery company had employed Maurice Barrell to dig the grave under instructions from Capt Cooke. While engaged in the work however he was ordered to quit by Henry Bennette as assistant of A. Johnson the present sexton. Barrell refusing an altercation ensued resulting in Bennette attempting to eject the former forcibly wresting the spade from him and attacking him with it in the attempt but in which however he failed. Johnson had objected to the proceedings of Kiernan on the ground that the grave had not been paid for and had declared his intention of refusing the burial until settlement should be made but trouble on this score was averted by Capt. Cooke upon his arrival with the body to be interred, producing the receipt for the price of the grave. The trouble, however did not end here, but was continued next day by Alsiger Bennette a brother of Henry who meeting Barrell on the street engaged him in a fisticuff. For their several performances both Bennettes were arrested under warrants issued from Justice Sliker's court for assault and battery and were arraigned yesterday for trial. The pugilistic Alsiger plead guilty, and was fined $10 and costs. Henry however, stood trial. Colonel Harrington appeared for the state, and Dr E Smith made his debut in a new role as counsel for the prisoners. The case however did not appear to be a good one for the forensic abilities of the doctor and his client was found guilty and fined $5 and costs. There has been more or less trouble between the former and present sexton ever since the appointment of the latter and it is time the cemetery company took the proper means to prevent any such disgraceful occurrences in the future.

JOHN GORDON'S DEATH.

W S Gordon has returned from The Cascades whither he went in response to a telegram informing him of the death of John Gordon a half brother. He was accompanied by F S Dunning the undertaker of this city. The body was found under a bridge at The Cascades and not in the river, as at first reported. The evident cause of death was a fractured skull but the fact of the body being found under the bridge leads to the suspicion that he had been foully dealt with as he could not well have fallen where he lay. An inquest was held but the jury reserved their verdict pending further developments as to the manner in which he met his death. Having given the remains a respectable burial, Messrs. Gordon and Dunning returned home. The decision of the jury is not yet learned

New York Freights.

NEW YORK April 10.—[illegible] freights are gradually assuming a quiet tone incident to the season and the three next months will likely be dull unless there should be a general falling out between railroads and a wiping out of the contract system

The Arabia is the most advanced vessel and will get away in a couple of days. The Wm. [illegible] will follow a few days thereafter

Rates are hardly steady at [illegible] San Francisco. The tonnage supply is in excess of the demand although there are [illegible] hand available for California trade but here is no urgent demand. The latest engagement is the Wm H Campbell in Vanderbilt's line to take the place of the Hecla, which goes to New Tacoma with railroad iron

Freights via the isthmus are unchanged. The steamer hence to day had for San Francisco 300 bbls rosin, 1000 kegs nails and a lot of plate iron, etc.

Rate cutting via the Delaware & Lackawana and Western railroad against the Sunset route is still going on although no damage appears to be done yet, shippers being afraid of penalties attached to running contracts. The question has been discussed by the pool lines but no result has been arrived at

General Milroy has informed his wards that the time for their elevation to a higher standard has arrived that they must no longer trust to hunting [illegible] fishing and [illegible] since game has become so scarce and the camas fields no longer yield a supply and that the best thing for them to do is to begin and live as near as they can like their pale face neighbors. With this view an election was held in which they elected a full set of officers of their own choice from among themselves. The election was held on the 2d of April. It remains to be seen what progress they will make. It is an excellent move. It is to be hoped that it will have good results

I am informed that the fruit trees at the mouth of the Wenatchee have escaped injury and that over a week ago the peach trees were in full bloom. That is a true home for peaches and grapes. It is perhaps owing to the circumstance that the wood in the fall gets fully matured and the warm weather during the first months of winter does not start the trees into new life, the sap remaining in the roots.

I see that high license has carried in Portland. A like good result has been achieved lately at Goldendale. A $300 license was required there one year ago and the high license was again carried at the late municipal election. That shuts off the saloon business effectually

A NOTED BUT UNTITLED WOMAN

[From the Boston Globe]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhoea, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.
